This random collection of songs reminds me of all the ways we are called to Go and Be Church. Sometimes we are called to Lift High the Cross and proclaim God's love. Other times we are called to be the hands and feet of God, as we are reminded in songs like The Summons and Do Something.

Some of the songs are about Dreams. Being church means following the model set by Joseph (Joseph Megamix) and dreaming big today (Set the World on Fire), but it also means dreaming small and remembering that we can be the church in all the little everyday things (Dream Small and Holy Now).

The song Same God reminds us that from the beginning God has been with the Church and God will always be with the church as we go and....

Through it all we are reminded that God is on the loose and the church is at work (God is on the Move and The Church is Alive).
